

Literacy

In spring we will be learning all about how a non-fiction book works and using what we've found out to create our own class book all about the

Ancient Egyptians. We'll also be looking at shape poems and creating our own based on our topic.

The children will learn to:

- Identify nouns, verbs, adverbs and adjectives
- Recognise clauses and conjunctions
- Use subheadings, contents and indexes and research other sources for information

Numeracy

Children will be learning all about measurement this term. This includes measuring, comparing, adding, subtracting lengths, weight and volume. They'll also look at solving problems involving missing numbers and more complex addition and subtraction.

The children will also be continuing with their multiplication and division work focusing on dividing with remainders and the 3, 4 and 7 times tables.

Science

This term we will be learning about how to keep ourselves healthy which includes the importance having a balanced diet and exercise.

Later on in the term, we will also look at the subject of 'light' and asking ourselves what it is and how do people use it.

PSHE Going for Goals!

We will be learning how to keep ourselves safe, clean and healthy with a focus on diet, exercise and hygiene.

Art

This term we will be learning about and experimenting with different printing techniques. We will focus on press printing to create works of art using the drawings that we created in the autumn term to inspire us.

Music

We will have whole class music lessons firstly on African drums before moving to Samba. We will perform both to parents.

RE

We are learning about Christian and Hindu religious symbols and how they have meaning for followers of these religions.

Computing

This term we use more advanced Logo programming to produce accurate line drawings. We will write procedures to reproduce shapes and patterns. We will begin to use Scratch2 to create animations. The children will learn how to change the backdrop and add sprites that move and speak.

Forest Schools & Gardening

We will be exploring some activities related to 'mapping'. This will include making and following trails and creating 3D 'maps' using natural resources. The spring term is also a very busy time in the garden! We will plant both flower and vegetable seeds as well as activities such as weeding and composting.

MFL

We will learn the numbers 11 – 15, learn how to ask for and state our age, look at colours and learn vocabulary relating to Easter.

PE

The children will be learning how to play kwik cricket followed by basketball.

Humanities

We will be learning about the mighty Ancient Egyptians: their culture, history, the lives of their pharaohs and people, the river Nile and the legacy of the Ancient Egyptians.

Year 3 (DP)

The Ancient Egyptians

Spring Term
